

SAFETY DATA SHEET

CPP H42 ANTIBACTERIAL HAND SOAP

According to Regulation (EC) No. 1272/2008 on Classification, Labelling and Packaging of Substances and Mixtures.

SECTION 1: Identification of	the substance/mixture and of the company/undertaking
1.1. Product identifier	
Product name	CPP H42 ANTIBACTERIAL HAND SOAP
Product number	CPPH42
1.2. Relevant identified uses	of the substance or mixture and uses advised against
Identified uses	Antibacterial hand soap.
Uses advised against	Not for direct contact with Food or Beverage stuffs. Not for oral consumption.
1.3. Details of the supplier of	the safety data sheet
Supplier	Booker Equity House, Irthlingborough Road Wellingborough Northants. NN8 1LT 01933 371000
Manufacturer	Holchem Group Ltd. Gateway House, Pilsworth Road, Pilsworth Industrial Estate, Bury Lancashire (UK). 0161 7965772 info@holchem.co.uk
1.4. Emergency telephone n	umber
Emergency telephone	Out of Office Hours Emergency Information:- For accidents and spillages involving this product that pose a threat to the environment, or human health, or require immediate first aid advice please call:- 0870 190 6777. NOTE: This number will not provide technical details of the product, or deal with other general enquiries regarding application and use of the product. This product is registered with the NPIS. UK Environment Agency 24hour Advisory Service 0800 807060.
SECTION 2: Hazards identif	ication
2.1. Classification of the sub	stance or mixture
Classification (EC 1272/2008	<u>3)</u>
Physical hazards	Not Classified
Health hazards	Not Classified
Environmental hazards	Not Classified
2.2. Label elements	
Hazard statements	NC Not Classified
Precautionary statements	P305+P351+P338 IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing.

P337+P313 If eye irritation persists: Get medical advice/ attention.

Detergent labelling < 5% amphoteric surfactants, < 5% cationic surfactants, Contains PHENOXYETHANOL

2.3. Other hazards

This product does not contain any substances classified as PBT or vPvB.

SECTION 3: Composition/information on ingredients	
3.2. Mixtures	
PEG-15 glyceryl isostearate	5-10%
CAS number: 68958-58-7	EC number: 614-860-5
Classification	
Aquatic Chronic 3 - H412	
DIDECYL DIMETHYL AMM	ONIUM CHLORIDE <1%
CAS number: 7173-51-5	EC number: 230-525-2
M factor (Acute) = 10	
Classification	Classification (67/548/EEC or 1999/45/EC)
Met. Corr. 1 - H290	Xn;R22. C;R34. N;R50.
Acute Tox. 4 - H302	
Skin Corr. 1B - H314 Eye Dam. 1 - H318	
Aquatic Acute 1 - H400	
Aquatic Chronic 2 - H411	
COCOAMIDOPROPYL BET	FAINE <1%
CAS number: 61789-40-0	EC number: 263-058-8
Classification	Classification (67/548/EEC or 1999/45/EC)
Eye Dam. 1 - H318	Xi;R41.
Aquatic Chronic 3 - H412	
The Full Text for all R-Phrase	es and Hazard Statements are Displayed in Section 16.
Composition comments	The Biocidally Active components of this product are supported in the Biocidal Products Regulation.
SECTION 4: First aid measu	res
4.1. Description of first aid me	easures
General information	Get medical advice/attention if you feel unwell. For immediate First Aid advice in the UK, dial 111.
Inhalation	Unlikely route of exposure as the product does not contain volatile substances.
Ingestion	Do not induce vomiting. Rinse mouth thoroughly with water. Get medical attention if symptoms are severe or persist.
Skin contact	Rinse with water.
Eye contact	Remove any contact lenses and open eyelids wide apart. Rinse immediately with plenty of water. Get medical attention if symptoms are severe or persist after washing.
Protection of first aiders	First aid personnel should wear appropriate protective equipment during any rescue.

4.2. Most important symptoms and effects, both acute and delayed

General information	The product is considered to be a low hazard under normal conditions of use.
Inhalation	Unlikely route of exposure unless deliberate inhalation has occured, this may result in irritation of nose, mouth and airways.
Ingestion	Unlikely route of exposure without deliberate abuse. If neat chemical is ingested, irritation of the mouth, throat and GI tract may occur.
Skin contact	No significant hazard at normal ambient temperatures.
Eye contact	May cause redness and irritation (stinging sensation) to eyes.
4.3. Indication of any immedia	te medical attention and special treatment needed
Notes for the doctor	Contains a blend of Surfactants and Lanolin derivatives in an aqueous solution
SECTION 5: Firefighting meas	sures
5.1. Extinguishing media	
Suitable extinguishing media	The product is non-combustible. Use fire-extinguishing media suitable for the surrounding fire.
5.2. Special hazards arising from	om the substance or mixture
Specific hazards	The product is non-combustible. If heated, irritating vapours may be formed.
5.3. Advice for firefighters	
Protective actions during firefighting	Protective clothing and respiratory protection should be worn when tackling fires involving this product. Control run-off water by containing and keeping it out of sewers and watercourses.
Special protective equipment for firefighters	Wear positive-pressure self-contained breathing apparatus (SCBA) and appropriate protective clothing.
SECTION 6: Accidental release	e measures
6.1. Personal precautions, pro	tective equipment and emergency procedures
Personal precautions	Ensure adequate ventilation of the working area. Wear protective clothing as described in Section 8 of this safety data sheet.
6.2. Environmental precaution	S
Environmental precautions	Spillages or uncontrolled discharges into watercourses must be reported immediately to the Environmental Agency or other appropriate regulatory body.
6.3. Methods and material for	containment and cleaning up
Methods for cleaning up	Small quantities can be dissolved/diluted in water and flushed to drain. Dispose of contents/container in accordance with national regulations.
6.4. Reference to other section	ns
Reference to other sections	See sections 8,12 & 13
SECTION 7: Handling and sto	rage
7.1. Precautions for safe hand	ling
Usage precautions	Refer to section 8. Ensure adequate ventilation of the working area. Wear suitable protective equipment for prolonged exposure and/or high concentrations of vapours, spray or mist.
7.2. Conditions for safe storag	e, including any incompatibilities
Storage precautions	Store in tightly-closed, original container in a dry, cool and well-ventilated place. Store below 40°C.

7.3. Specific end use(s)

Specific end use(s)

Antibacterial hand soap.

SECTION 8: Exposure controls/Personal protection

8.1. Control parameters

Ingredient comments Where an exposure level is quoted, a risk assessment should consider if there is a need to monitor the atmosphere of the working environment. Results should be compared against the WEL and/or DNEL information provided. Where a worker is exposed to levels approaching a limit, further exposure control measures should be considered to reduce exposure to the substance. DNEL and/or PNEC information is supplied by manufacturers of substances in accordance with REACH legislation (Regulation (EC) No 1907/2006), and is used to provide suitable risk reduction measures to limit exposure of the user of the substance to a non hazardous level. If the measured level of exposure by a route divided by the DNEL for the route is greater than 1, then further exposure controls should be implemented as described in section 8.2. Where new information becomes available under REACH, this will be passed on as revisions to the Safety Data Sheet.

COCOAMIDOPROPYL BETAINE (CAS: 61789-40-0)

DNEL	Professional - Dermal; Long term systemic effects: 12.5 mg/kg bw/day Professional - Inhalation; Long term systemic effects: 44 mg/m³
PNEC	 Fresh water; 0.0135 mg/l marine water; 0.00135 mg/l Sediment (Freshwater); 1 mg/kg Soil; 0.8 mg/kg STP; 300 mg/l Sediment (Marinewater); 0.1 mg/kg
	2-PHENOXYETHANOL (CAS: 122-99-6)
DNEL	Professional - Inhalation; Long term systemic effects: 8.07 mg/m³ Professional - Dermal; Long term systemic effects: 34.72 mg/kg bw/day - Inhalation; Long term local effects: 8.07 mg/m³
PNEC	 marine water; 0.0943 mg/l STP; 24.8 mg/l Intermittent release; 3.44 mg/l Sediment (Freshwater); 7.23 mg/kg Sediment (Marinewater); 0.723 mg/kg Soil; 1.26 mg/kg Fresh water; 0.943 mg/l

8.2. Exposure controls

Protective equipment

Appropriate engineering controls

As this product contains ingredients with exposure limits, process enclosures, local exhaust ventilation or other engineering controls should be used to keep worker exposure below any statutory or recommended limits, if use generates dust, fumes, gas, vapour or mist.

Personal protection	The PPE indicated above is not a COSHH assessment. It represents PPE that should be considered during the manufacture, distribution, use and final disposal stages of this product's life cycle. It is the responsibility of employers to conduct a COSHH/risk assessment to determine appropriate PPE levels. The information given below should be used to support this assessment. Where possible replace manual processes with automated or closed processes to minimise contact with the product.
Eye/face protection	Wear approved, tight fitting safety glasses where splashing is probable. Refer to EN Standard 166 to select appropriate level of protection.
Hand protection	No specific requirements are anticipated under normal conditions of use.
Other skin and body protection	Wear suitable protective clothing as protection against splashing or contamination. Reference to EN 13832 and EN 943 is useful when selecting footwear and clothing.
Hygiene measures	Provide eyewash station and safety shower. Promptly remove non-impervious clothing that has become contaminated, provided it is not adhered to the skin.
Respiratory protection	No specific recommendation made, but respiratory protection must be used if the general level exceeds the Workplace Exposure Limit.
Environmental exposure controls	Do not allow the substance to contaminate surface water/ground water. See points 6, 12 &13.
General Health and Safety Measures.	A full Risk Assessment should be carried out before handling any chemical(s). Risk Assessments should refer to COSHH, and any other relevant legislation or industry specific guidelines governing the use of chemicals.

SECTION 9: Physical and chemical properties

9.1. Information on basic phys	ical and chemical properties
Appearance	Liquid
Colour	Pearlised
Odour	Surfactant
Odour threshold	Not applicable.
рН	5 - 6
Melting point	Not applicable.
Initial boiling point and range	Not applicable.
Flash point	Not applicable.
Evaporation rate	Not applicable.
Evaporation factor	Not applicable.
Flammability (solid, gas)	Not applicable.
Upper/lower flammability or explosive limits	Not applicable.
Vapour pressure	Not applicable.
Vapour density	Not applicable.
Relative density	1.0 - 1.02 @ 20 Degrees C
Bulk density	Not applicable.
Solubility(ies)	Soluble in water.

Partition coefficient	Technically not feasible.
Auto-ignition temperature	Not applicable.
Decomposition Temperature	Not applicable.
Viscosity	Not determined.
Explosive properties	Not applicable.
Explosive under the influence of a flame	Not considered to be explosive.
Oxidising properties	Does not meet the criteria for classification as oxidising.
9.2. Other information	
Refractive index	Not applicable.
Particle size	Not applicable.
Molecular weight	Not applicable.
Volatility	Not applicable.
Saturation concentration	Not applicable.
Critical temperature	Not applicable.
Volatile organic compound	Not applicable.
Explosive Properties	Not Classified as Explosive
Storage Temperature Range	0 - 40°C
SECTION 10: Stability and rea	activity
10.1. Reactivity	
10.1. Reactivity Reactivity	Not expected to react when correctly stored and used. Mixing with other chemicals may produce unexpected reactions.
Reactivity	
Reactivity 10.2. Chemical stability	produce unexpected reactions. Stable at normal ambient temperatures and when used as recommended See note 10.6.
Reactivity 10.2. Chemical stability Stability	produce unexpected reactions. Stable at normal ambient temperatures and when used as recommended See note 10.6.
Reactivity <u>10.2. Chemical stability</u> Stability <u>10.3. Possibility of hazardous</u> Possibility of hazardous	produce unexpected reactions. Stable at normal ambient temperatures and when used as recommended See note 10.6. reactions
Reactivity <u>10.2. Chemical stability</u> Stability <u>10.3. Possibility of hazardous</u> Possibility of hazardous reactions	produce unexpected reactions. Stable at normal ambient temperatures and when used as recommended See note 10.6. reactions
Reactivity <u>10.2. Chemical stability</u> Stability <u>10.3. Possibility of hazardous</u> Possibility of hazardous reactions <u>10.4. Conditions to avoid</u>	produce unexpected reactions. Stable at normal ambient temperatures and when used as recommended See note 10.6. reactions Refer to section 10.1.
Reactivity 10.2. Chemical stability Stability 10.3. Possibility of hazardous Possibility of hazardous reactions 10.4. Conditions to avoid Conditions to avoid	produce unexpected reactions. Stable at normal ambient temperatures and when used as recommended See note 10.6. reactions Refer to section 10.1.
Reactivity 10.2. Chemical stability Stability 10.3. Possibility of hazardous Possibility of hazardous reactions 10.4. Conditions to avoid Conditions to avoid 10.5. Incompatible materials	produce unexpected reactions. Stable at normal ambient temperatures and when used as recommended See note 10.6. reactions Refer to section 10.1. Avoid excessive heat for prolonged periods of time. Strong acids. Bleach.
Reactivity 10.2. Chemical stability Stability 10.3. Possibility of hazardous Possibility of hazardous reactions 10.4. Conditions to avoid Conditions to avoid 10.5. Incompatible materials Materials to avoid	produce unexpected reactions. Stable at normal ambient temperatures and when used as recommended See note 10.6. reactions Refer to section 10.1. Avoid excessive heat for prolonged periods of time. Strong acids. Bleach.
Reactivity 10.2. Chemical stability Stability 10.3. Possibility of hazardous Possibility of hazardous reactions 10.4. Conditions to avoid Conditions to avoid 10.5. Incompatible materials Materials to avoid 10.6. Hazardous decomposition	produce unexpected reactions. Stable at normal ambient temperatures and when used as recommended See note 10.6. reactions Refer to section 10.1. Avoid excessive heat for prolonged periods of time. Strong acids. Bleach. Does not decompose when used and stored as recommended See section 10.5.
Reactivity 10.2. Chemical stability Stability 10.3. Possibility of hazardous Possibility of hazardous reactions 10.4. Conditions to avoid Conditions to avoid 10.5. Incompatible materials Materials to avoid 10.6. Hazardous decomposition products	produce unexpected reactions. Stable at normal ambient temperatures and when used as recommended See note 10.6. reactions Refer to section 10.1. Avoid excessive heat for prolonged periods of time. Strong acids. Bleach. Does not decompose when used and stored as recommended See section 10.5. formation
Reactivity 10.2. Chemical stability Stability 10.3. Possibility of hazardous Possibility of hazardous reactions 10.4. Conditions to avoid Conditions to avoid 10.5. Incompatible materials Materials to avoid 10.6. Hazardous decomposition products SECTION 11: Toxicological in	produce unexpected reactions. Stable at normal ambient temperatures and when used as recommended See note 10.6. reactions Refer to section 10.1. Avoid excessive heat for prolonged periods of time. Strong acids. Bleach. Does not decompose when used and stored as recommended See section 10.5. formation

General information	See section 4.2.
Inhalation	Unlikely route of exposure. Inhalation of sprayed droplets may result in soreness of the throat, mouth and nose See section 4.2.
Ingestion	Unlikely route of exposure without deliberate abuse. There may be soreness and redness of mouth and throat. A soapy taste may be reported. May cause irritation/discomfort to mucous membranes.
Skin contact	Under normal conditions of use exposure time will be short and the likelihood of causing skin irritation will be very low. Long exposure may result in skin dryness.
Eye contact	May cause temporary eye irritation.
SECTION 12: Ecological infor	mation
Ecotoxicity	This product is not classified as environmentally hazardous. However, this does not exclude the possibility that large or frequent spills can have a harmful or damaging effect on the environment.
12.1. Toxicity	
Acute aquatic toxicity	
Acute toxicity - fish	Normal use of diluted product is unlikely to pose a risk. See note 12.0.
12.2. Persistence and degrada	ability
Persistence and degradability	The surfactant(s) used in this preparation complies (comply) with the biodegradability criteria as laid down in the European Detergents Regulation No 648/2004 as amended.
12.3. Bioaccumulative potentia	al
Bioaccumulative potential	Not expected to bioaccumulate.
Partition coefficient	Technically not feasible.
12.4. Mobility in soil	
Mobility	The product contains substances which are water soluble and may spread in water systems.
12.5. Results of PBT and vPv	B assessment
Results of PBT and vPvB assessment	This product does not contain any substances classified as PBT or vPvB.
12.6. Other adverse effects	
Other adverse effects	Not determined.
SECTION 13: Disposal consid	lerations
13.1. Waste treatment method	is
General information	When handling waste, the safety precautions applying to handling of the product should be considered. Do not mix with other chemicals.
Disposal methods	Disposal of this product, process solutions, residues and by-products should at all times comply with the requirements of environmental protection and waste disposal legislation and any local authority requirements. Small volumes of use solution can be disposed of to sewers.
SECTION 14: Transport inform	nation

General

The product is not covered by international regulations on the transport of dangerous goods (IMDG, IATA, ADR/RID).

14.1. UN number

Not applicable.

14.2. UN proper shipping name

Not applicable.

14.3. Transport hazard class(es)

No transport warning sign required.

14.4. Packing group

Not applicable.

14.5. Environmental hazards

Environmentally hazardous substance/marine pollutant No.

14.6. Special precautions for user

Not applicable.

14.7. Transport in bulk according to Annex II of MARPOL and the IBC Code

Transport in bulk according to Not applicable. Annex II of MARPOL 73/78 and the IBC Code

SECTION 15: Regulatory information

15.1. Safety, health and environmental regulations/legislation specific for the substance or mixture

 EU legislation
 European Regulation (EC) No 1272/2008 on Classification, Labelling and Packaging of
Substances and Mixtures.
This replaces Directive 67/548/EEC - Classification, Packaging and Labelling of Dangerous
Substances and Regulation (EC) No. 453/2010 relating to the Classification, Packaging and
Labelling of Dangerous Preparations. Also considered is the REACH Regulation (EC)
No.1907/2006.

15.2. Chemical safety assessment

Pcs Information

No chemical safety assessment has been carried out.

SECTION 16: Other information

Abbreviations and acronyms used in the safety data sheet	 (EC) No. 1272/2008 : EU Regulation on Classification, Labelling and Packaging of Substances and Mixtures. NPIS - National Poisons Information Service. vPvB - Very Persistent, Very bioaccumulative. PBT - Persistent, Bioaccumulative & Toxic. REACH - Registration, Evaluation, Authorisation & restriction of CHemicals (Regulation EC 1907/2006). DNEL - Derived No Effect Limit. PNEC - Predicted No Effect Concentration. COSHH - Control of Substances Hazardous to Health. Industry - Refers in section 8 to application/use of the preparation/product in a skilled trade premises.
General information	This document is a Safety Data Sheet, NOT a CoSHH assessment. It is the customer's responsibility to conduct a full CoSHH assessment, taking into account the information held within this document along with other local factors considered in a risk assessment. The Risk and Hazard statements listed below are the full text of abbreviations used in this document. They are not the final classification, for this refer to section 2.
Revision comments	Product Launch
Revision date	01/05/2019
SDS number	26175
Hazard statements in full	 H290 May be corrosive to metals. H302 Harmful if swallowed. H314 Causes severe skin burns and eye damage. H318 Causes serious eye damage. H400 Very toxic to aquatic life. H412 Harmful to aquatic life with long lasting effects.
REACH extended MSDS comments	REACH requires that persons handling chemicals should take the necessary risk management measures, in accordance with assessments from manufacturers and importers of chemical substances. The relevent recommendations must be passed along the supply chain. These assessments are generally reported in Exposure Scenarios. Where Exposure Scenarios have been provided for substances used in this product, the relevent information is incorporated into the safety data sheet.
END OF SAFETY DATA SHEET	

SHEET

This information relates only to the specific material designated and may not be valid for such material used in combination with any other materials or in any process. Such information is, to the best of the company's knowledge and belief, accurate and reliable as of the date indicated. However, no warranty guarantee or representation is made to its accuracy, reliability or completeness. It is the user's responsibility to satisfy himself as to the suitability of such information for his own particular use.
