Clean Pro+ Product	Dosing	Application	
<p><b>* Kitchen Cleaner</b></p> 	<p>60 – 120 ml per 5 litres of water</p>		
<p><b>Concentrated Washing Up Liquid with Antibacterial Agent</b></p> 	<p>20 – 40 ml per 10 litres of water</p>		

**Cleaning Method**

- 1 Empty beverage back into the bottle and carefully remove the optic.
- 2 Empty the drip trays to drain.
- 3 Place optics and drip trays in a sink of Kitchen Cleaner or Washing Up Liquid. Scrub the drip trays, rinse with water and allow to drain dry on a clean surface.
- 4 Operate the optics to fill with the cleaning solution and leave in contact for a period of time dependent on the level of residue to be removed.
- 5 Repeat the procedure detailed above and then with clean water.
- 6 Rinse exterior of optic with clean water.
- 7 Replace the optics and drip trays.

\* This product is also available as a 1 litre concentrate and a 1 litre ready to use.
