Cost-effective security tagging for your store

Complete starter system for just:

£1,250 plus VAT

Chirp-protect's innovative alarm tagging system is easy to install and accessible to stores of all sizes, empowering all convenience stores to combat shoplifting and improve staff welfare. With no maintenance fee or subscription, Chirp-protect is your low-cost theft prevention solution.

No security gates

Chirp-protect system does not require fixed, bulky gates. It's antenna is a 14cm cube that sits above your store exit

Compatibility with CCTV

Synchronises with most security systems - CCTV, headsets & AI systems - for comprehensive surveillance and monitoring.

Tamper-proof Tags

Our Tags will still alarm if cut or forcefully removed from the product, highlighting theft attempts immediately.

A Range of Reusable Tags

Different tags for a range of products. Plus tags are reusable, and last up to 5 years, making it cost-effective for stores of all sizes.

“

Initially, we faced recurring issues with shoplifting, particularly high value items like detergents, deodorants, meat, and cheese. Despite CCTV coverage, blind spots remained a challenge, especially with thefts of deodorant cans. Determined to address this, we turned to Chirp-protect, and the results have been outstanding.”
