

TACKLING THE RETAIL CRIME EPIDEMIC WITH BODY-WORN CAMERAS

Increasing levels of shoplifting and abuse against staff have led to the increased deployment of body-worn cameras across many retailers.

THE VT100 SOLUTION

- ✓ Its very presence can help to **de-escalate** confrontational situations.
- ✓ If an incident occurs, its recording capabilities allow you to **capture evidence-grade** video to support a **prosecution**.
- ✓ The camera is lightweight and discreet, with a range of mounting options suitable for any clothing.
- ✓ It's **easy to use** and requires minimal staff training.
- ✓ The VT100 fulfils your **duty of care** to protect staff from customer **aggression**. For **loss prevention** workers it ensures the good behaviour of all parties, at the same time capturing indisputable, **evidence-grade** video footage.
- ✓ Easily integrated with your fixed security camera system, the VT100 can be configured to alert your security team and start a **live video stream** to the control centre whenever it's activated
