

OFFERING THE **BEST** ENERGY SAVING SOLUTIONS FOR YOUR BUSINESS

Our new, exclusive, energy efficiency solutions, designed for Booker customers

The Business Energy Savings Team (BEST) is a Booker Added Value Service, and can now offer you the most effective and efficient energy saving solutions for your business, at a time when you really need it.

This new BEST package is designed specifically for businesses like yours and includes energy saving technologies such as:

SOLAR PANELS

Generate your own energy and save money with the installation of our BEST solar panels.

- Benefit from reduced costs by being part of a larger group of Booker customers
- Install a 4 KW solar panel array for as little as £5,800* and produce up to 3400 KWh of electricity annually
- Change energy suppliers to one of our partners to receive a special feed in tariff

EV CAR CHARGING

Introducing BEST EV charging points.

- EV charge points compatible with Booker chargers, installed from £1650**
- Enjoy cheaper running costs with an electric car
- Benefit from low vehicle tax
- Charge your vehicle while you work
- Reduce your business' carbon footprint

BATTERY ENERGY STORAGE SYSTEMS

Store electricity with our BEST Battery Storage Systems and release it as and when your business needs.
